

A young girl with glasses, wearing a black blazer over a white polka-dot shirt, sits at a desk in an office setting. She is looking upwards and to the right with a thoughtful expression, her hand resting on her chin. On the desk in front of her are a white coffee cup on a saucer, a laptop, and two mesh file holders containing various papers and notebooks. The background shows office windows with blinds.

## OVERVIEW

She Elevates empowers girls, ages 8-14, to become confident leaders who can create, manage, and grow a successful and thriving business enterprise. Our primary focus is mindset adjustment from the expectation of being an employee to what it means to be a business owner, start a business or CEO. This is implemented through programs which include the She Elevates Academy, the She Elevates Academy Online and the She Shadow Mentor Experience. During the academy, girls choose between starting a business, writing a book or doing a community project. Additionally, we have added a community service project for the entire group to foster the spirit of giving back, while also teaching them about the community and how they can play an integral role in its success and growth. We help to develop their entrepreneurial mindset by teaching leadership skills, idea development, goal setting, communication skills, public speaking, financial literacy, marketing, sales, branding and innovation.

The Alumnae can be a part of She Elevates until they turn age 21 through the She Shadow Mentor Experience and by mentoring girls associated with She Elevates. Girls are mentored and trained by women who are current business owners, community leaders, and women of great influence.
